The world's first National Park! If you like nature, hiking, camping, and enjoying the outdoors, Yellowstone might be the perfect summer experience for you! Yellowstone National Park features over 1,000 miles of hiking trails, mountains, rivers, and streams, wildlife, and geological features including geysers, hot springs, and more. Our jobs are similar to many other places in the U.S., but this is a very special place located in the middle of the wilderness.

Roosevelt Lodge, built in 1920, is located near a campsite once used by President Theodore Roosevelt. The historic, rustic location is like stepping into the wild west, complete with horses, cowboys, cabins, and bonfires.

Roosevelt is a special place to live and work, and provides the most western experience of all our park locations. If you're looking for adventure disconnected from the hustle and bustle; this is the perfect place for you.
